STATEMENT OF VALUES

Recommendation 3.1 of the Principles and Recommendations (Fourth Edition) states that "A listed entity should articulate and disclose its values".

The Redflex Group believes that our success is derived from our commitment to living out a set of values that inform who we are and the way we work and interact with our employees, customers, partners and suppliers.

These values are vitally important to the achievement of our business and organisational goals and to the creation of long-term and sustainable growth for our shareholders and other stakeholders. Our values reflect who we are as a company and what we stand for as well as what we do not support as a 'good corporate citizen'.

It is important that our employees and the people and entities we deal with on a day to day basis understand and are aligned with our values and understand why they are so important to us. They enhance the confidence that our employees and others have in our ability to achieve our mission to make roads safer and more efficient 'For a World on the Move'.

We seek to model our values through our recruitment, employment conditions, training, professional development, remuneration and procurement practices.

We believe that delivering long-term, consistent shareholder returns on investment requires our continuing commitment to the values contained in this statement.

While the Company has elected to adopt the Principles and Recommendations (Fourth Edition) early, for this reason the Company did not comply with Recommendation 3.1 for the reporting period.

The Company has disclosed its Statement of Values in the "Investors / Governance / Statement of Values and Codes of Conduct" tab on the Redflex website on and from 1 July 2019. The Company has therefore adopted Recommendation 3.1 for the year ended 30 June 2020.

EQUAL EMPLOYMENT OPPORTUNITY AND DIVERSITY AT REDFLEX

The Company is committed to an inclusive workplace that embraces and promotes diversity of all types. Equal employment opportunities are about good employment practices and efficient use of our most valuable resources – our employees. The Company recognises that its employees are critical to its success and seeks to leverage each individual's unique skills, background and perspectives.

The Company aims to provide an environment in which all employees are included and have equal access to opportunities at work, while upholding the principle of meritocracy at all times. The Company also believes that fostering diversity at all levels allows it to provide greater alignment with customer needs, improves the creativity and innovation of leadership teams and supports the development of an enhanced talent pipeline for key and future roles by enabling access to a broader pool of talent.

The Company also strives to create a work environment free of discrimination and harassment, and is inclusive of all people, regardless of their gender, age, race, disability, sexual orientation, cultural background, religion, family responsibilities or any other area of potential difference.

To this end, the Company acknowledges Recommendations 1.5(b) and (c) contained in the Principles and Recommendations (Fourth Edition) but does not currently comply with them. While the Company has chosen to adopt the Principles and Recommendations (Fourth Edition), as a whole, early and it supports having appropriate and meaningful benchmarks on gender diversity that are able to be, and are, monitored and measured, the Company is in the process of determining whether setting specific numerical targets for the proportion of women on its Board, in senior executive roles and in its workforce generally within a specified timeframe is in the best interests of the Company.

The Company has made significant movement, in particular, on increasing the proportion of women in its workforce generally and has put steps in place to continue this trend. Accordingly, during the reporting period:

- the Company has adopted an internal recruitment and selection policy. This internal policy includes a requirement for all hiring managers to be trained in the recruitment and selection process including in relation to the importance of addressing gender imbalance and, where possible, in seeking to attract equal representation of genders at interviews for open roles at Redflex;
- the Company has developed an internal flexible work arrangements policy to provide further stimuli for the attraction of gender diverse candidates for open roles at Redflex. It is expected that the Company will implement this policy in FY2020;
- the Company has developed a dedicated and enhanced careers section of the Redflex website (<https://redflex.com/int/careers/>). This part of the Redflex website highlights our culture, our people, employment benefits and also contains key staff profiles featuring a diverse group of employees including showcasing our 'women in tech' and 'women in leadership' positions;
- the Company held briefing sessions with all of its external recruitment agencies to inform them of the Company's desire to address the gender imbalance and for the Redflex Group to seek to attract equal representation of gender diverse candidates at interviews for open roles at Redflex;
- the Company determined that external recruitment agencies who do not support our desire for addressing gender diversity or who are not aligned with our values on diversity and support would no longer be eligible to service the Company's recruitment needs;

- the Company has developed and will implement during FY2020 diversity training modules for hiring managers and employees on topics, such as:
 - bridging the diversity gap;
 - your role in workplace diversity; and
 - understanding and overcoming unconscious bias in the workplace; and
- the Company commenced its assessment of the following further gender diversity initiatives (with the desire to implement these initiatives in FY2020):
 - increasing the Company’s recruitment incentive for employees (under the Company’s employee referral program) who introduce gender diverse candidates for open roles at Redflex;

BOARD AND SENIOR EXECUTIVE PERFORMANCE EVALUATION

Board and Senior Executives

The effective functioning of the Board, along with the performance of the Company's senior executives, is a crucial element to achieving the desired financial, non-financial and governance outcomes for the Company. Performance of the Board, individual directors and senior executives is therefore evaluated regularly and formally once per year against both measurable and qualitative indicators that are aligned with these financial, non-financial and governance outcomes.

The performance of directors is reviewed annually by the Board Chair, with the assistance of the chair of the Nominations Committee, after each director has provided an assessment of the performance of their fellow directors and the Chair. The performance of the Board Chair is also assessed by each non-executive director and the results are collated by the chair of the Nominations Committee. As part of the directors' performance review the directors also provided feedback on Board effectiveness. The directors' performance review was completed for the reporting period.

The performance of the Group Chief Executive Officer is formally reviewed annually by the Nominations Committee and the Board each year. This review was completed for the reporting period.

The performance of senior executives (reporting to the Group Chief Executive Officer) is reviewed annually by the Group Chief Executive Officer. These reviews were completed for the reporting period.

Group Chief Executive Officer

The Nominations Committee undertook a review of the performance of the Group Chief Executive Officer for the year ended 30 June 2019. This review was based on measurable and qualitative indicators in the areas of the Redflex Group's financial performance (EBITDA and Revenue financial performance) and certain identified and measurable non-financial factors.

Outcomes

Outcomes of Board performance evaluations are discussed by the Board. For individual non-executive directors, if any areas are identified for improvement, this may be dealt with by informal mentoring and coaching by fellow directors or by the Board Chair. Further formal training and professional development activities may also be required for non-executive directors. In any case, all non-executive directors are encouraged to participate in continuing professional development.

The non-executive directors consider that the insights from the most recent Board evaluation include that, collectively, the Board has the desired level of financial and commercial acumen, has a diverse range of skills, experience, expertise and individual backgrounds, has a sound understanding of the Company's technology and its process for product innovation, has a sound understanding of the Company's customer base and needs, is able to understand the Company's risks and monitor the effectiveness of its risk management and compliance framework and understands the imperative for shareholder alignment. The Board has identified further Board gender diversity as a key objective consistent with the Principles and Recommendations (Fourth Edition).

If non-executive director performance is considered unsatisfactory, and not able to be improved significantly despite best efforts, the non-executive director would be requested to retire.

For the Group Chief Executive Officer and other senior executives, if performance is considered unsatisfactory, and not able to be improved significantly despite best efforts, the senior executive would be removed.

NOMINATIONS COMMITTEE

The Nominations Committee operates under a charter approved by the Board which is published on the Redflex website. The Board disclosed its Nominations Committee Charter for the whole of the reporting period.

The purpose of the Nominations Committee is to:

- identify and assess individuals qualified to become Board members;
- review succession plans for the Board, Group Chief Executive Officer and other senior executives;
- ensure the performance of individual Board and Committee members is reviewed;
- evaluate performance of the Board, as a whole; and
- develop and recommend to the Board the appropriate process for evaluation of the performance of the Group Chief Executive Officer and assist the Board in such evaluation of the performance of the Group Chief Executive Officer.

The Company appoints an external firm to undertake appropriate background checks before appointing a person, or putting forward to security holders a new candidate for election, as a director.

The Nominations Committee comprises the full Board (other than Mr Talbot) and is chaired by Mr Winters, an independent director of the Board (effective from 18 April 2019). Mr Schwarz was the chair of the Nominations Committee from 1 July 2018 to 18 April 2019.

The relevant qualifications and experience of the members of the Nominations Committee are set out in the Directors' Report (set out in the 2019 Annual Report) and are also published on the Redflex website.

As at the year ended 30 June 2019, the number of times the Nominations Committee met throughout the reporting period, the members of the Nominations Committee and the individual attendances of the members at those meetings is set out in the sections below entitled "Directors' and Board Committee meetings" and "Board Committee membership".

STRUCTURE OF THE BOARD

To ensure that the Board is well equipped and appropriately qualified to discharge its responsibilities, it has established guidelines for the nomination and selection of directors and for the operation of the Board. The skills, experience and expertise of each director relevant to the position of director is included in the Directors' Report (set out in the 2019 Annual Report) and is published on the Redflex website. These details are also included in each Annual General Meeting (AGM) Notice of Meeting for directors who are seeking election or re-election to the Board.

Directors of Redflex are considered to be independent when they are independent of management and free of any interest, position or relationship that might influence, or reasonably be perceived to influence, in a material respect, a director's capacity to bring an independent judgment to bear on issues before the Board and to act in the best interests of the Company, as a whole, rather than in the interests of an individual security holder or other party.

The Board annually assesses whether each non-executive director is independent. If a non-executive director's independent status changes during the reporting period, the Company will disclose this to the market promptly and without delay.

In accordance with the definition and the set materiality thresholds, the independence status of non-executive directors of the Company as at the year ended 30 June 2019 is as follows:

Adam Gray, Chair	-
Clark Davey	Independent
Robert DeVincenzi	Independent
David McIntyre	Independent
Herman Schwarz	Independent
Terence Winters	Independent

Accordingly, the Board of the Company comprises a majority of independent non-executive directors.

Mr Gray, although meeting other criteria, and bringing independent judgement to bear on his role and issues before the Board, is not assessed as 'independent' within the Principles and Recommendations (Fourth Edition), primarily due to the fact that he is an officer of Coliseum Capital, which is a substantial shareholder of the Company. The Board acknowledges Recommendation 2.5 of the Principles and Recommendations (Fourth Edition) that the Board Chair should be an independent director. However, as at the date of this statement, the Board believes that full adoption of Recommendation 2.5 is not in the best interests of the Company. This judgement is based on the Board's assessment that Mr Gray brings critical and objective judgement to the issues before the Board and that he makes an invaluable contribution to the Company through his deep understanding of Redflex's business. Mr Gray also observes the Corporations Act requirements in relation to participating in and voting in directors' meetings if he has a material personal interest in the matter and in relation to disclosures of conflicts of interest.

The Board disclosed its Board Skills & Diversity Matrix for the whole of the reporting period. The Board has determined that all appointments of non-executive directors are made on the basis of their range of skills, experience, expertise and attributes that the Board considers desirable for the Company, its business and its shareholders.

The length of service of each director in office as at the year ended 30 June 2019 is as follows:

DIRECTOR INDUCTION AND CONTINUING PROFESSIONAL DEVELOPMENT

The Company has a program for the induction of new directors to the Company. The Company provides new directors with briefings from management and all relevant written background material related to the Company that a new director would reasonably expect to receive such as statutory information, past and present financial and non-financial information, information regarding directors' duties and responsibilities and access to past and present books and records of the Company.

Directors are also encouraged to participate in continuing professional development activities, attend or present seminars or courses and to participate in other activities designed to further develop their skills and knowledge. The Company also encourages directors and officers, should they wish, to become members of the Australian Institute of Company Directors or other relevant professional associations or bodies with similar objectives of enhancing directors' skills and knowledge.

AUDIT & RISK COMMITTEE (FORMERLY SEPARATE AUDIT COMMITTEE AND RISK & COMPLIANCE COMMITTEE)

Audit & Risk Committee (from 20 March 2019)

The Board has delegated responsibility for establishing and maintaining a framework of internal control, risk management and compliance to the Audit & Risk Committee (a merger of the former Audit Committee and Risk & Compliance Committee on 20 March 2019) which operates under a charter approved by the Board that is published on the Redflex website. The Board disclosed its Audit Committee Charter and Risk & Compliance Committee Charter for the period 1 July 2018 to 21 May 2019. From 21 May 2019, the Board disclosed its new Audit & Risk Committee Charter.

It is the Board's responsibility to ensure that an effective internal control, risk management and compliance framework exists within the Company. This includes internal controls to deal with the effectiveness and efficiency of significant business processes, the safeguarding of assets, the maintenance of proper accounting records and the reliability of financial information, as well as non-financial considerations such as the benchmarking of operational key performance indicators, legal and regulatory compliance and risk management.

The Audit & Risk Committee also provides the Board with assurance regarding the reliability of financial information for inclusion in the financial reports. The Audit & Risk Committee also oversees regular and periodic assessments of the effectiveness of risk management, compliance and internal control within the Company throughout the reporting period.

The Audit & Risk Committee comprises four non-executive directors:

- Clark Davey, committee chair;
- Adam Gray;
- David McIntyre; and
- Terence Winters (from 20 March 2019).

The relevant qualifications and experience of the members of the Audit & Risk Committee are set out in the Directors' Report (set out in the 2019 Annual Report) and are also published on the Redflex website.

As at the year ended 30 June 2019, the number of times the Audit & Risk Committee met throughout the reporting period, the members of the Audit & Risk Committee and the individual attendances of the members at those meetings is set out in the sections below entitled "Directors' and Board Committee Meetings" and "Board Committee Membership".

Former Risk & Compliance Committee (from 1 July 2018 to 20 March 2019) has transitioned its activities to the Audit & Risk Committee (from 20 March 2019)

From 1 July 2018 to 20 March 2019, the Board delegated responsibility for establishing, maintaining and overseeing the risk management and compliance framework to the former Risk & Compliance Committee which operated under both the former Audit Committee Charter and Risk & Compliance Committee Charter approved by the Board and published on the Redflex website (until 21 May 2019). From 21 May 2019, the Audit & Risk Committee operated under its own charter approved by the Board and published on the Redflex website (from 21 May 2019).

Redflex believes that effective risk management and observance of compliance obligations is an essential part of the Company's governance approach to ethical decision-making and creating long-term shareholder value.

In recognition of this, the Board, through the Audit & Risk Committee, is responsible for overseeing and approving the Risk & Compliance Policy and Framework (which is also available on the Redflex website) which is reviewed annually. The Risk & Compliance Policy and Framework was reviewed by the former Risk & Compliance Committee and the Board during the reporting period.

The Risk & Compliance Policy and Framework sets the tone for risk and compliance management in the Company. It also sets out how risk management and compliance supports the Company's goals and objectives, the Company's principles and objectives of, and its approach to, risk management and compliance and the relevant responsibilities for risk management and compliance within the Company.

Under the Audit & Risk Committee Charter, the Committee has primary responsibility to oversee and make recommendations to the Board about the Company's Risk & Compliance Policy and Framework, the effectiveness of the Company's risk management and compliance program in managing such program to minimize losses and to maximize opportunities, the implementation of risk management and compliance action plans prepared by management and to review these plans and the Company's global insurance program.

The members of the former Risk & Compliance Committee members were:

- Robert DeVincenzi, committee chair (until 20 March 2019);
- Herman Schwarz (until 20 March 2019); and
- Terence Winters (until 20 March 2019).

While the Company does not currently have a separate and distinct internal audit function, the tasks of undertaking and assessing risk management, compliance and internal control effectiveness is delegated to the Audit & Risk Committee and for it to report to the Board. The key areas of focus for the Audit & Risk Committee include monitoring and reviewing the compliance program, internal policies and procedures, risk management and insurance, the legal obligations of the Company, compliance investigations by management, reports and complaints, internal controls and seeking relevant assurances from management.

Management, through the Group Chief Executive Officer, is responsible for the day-to-day implementation and achievement of the Company's risk management and compliance program and objectives. Management reports to the

Audit & Risk Committee which, in turn, reports to the Board on the Company's key risks and compliance obligations and the extent to which it believes these risks and compliance obligations are being adequately managed.

The relevant qualifications and experience of the members of the former Risk & Compliance Committee and the newly formed Audit & Risk Committee are set out in the Directors' Report (set out in the 2019 Annual Report).

As at the year ended 30 June 2019, the number of times the former Risk & Compliance Committee met throughout the reporting period, the members of the former Risk & Compliance Committee and the individual attendances of the members at those meetings is set out in the sections below entitled "Directors' and Board Committee Meetings" and "Board Committee Membership".

GROUP CEO AND CFO CERTIFICATION

The Group Chief Executive Officer and the Group Chief Financial Officer have both provided a written declaration to the Board for the reporting period that complies with section 295A(2) of the *Corporations Act 2001* (Cth) that, in their opinion:

- the financial records of the Company for the financial year have been properly maintained in accordance with section 286 of the *Corporations Act 2001* (Cth);
- the financial statements and the accompanying notes to the financial statements of the Company comply with the accounting standards;
- the financial statements and the accompanying notes to the financial statements give a true and fair view of the financial position and of the performance of the Company and the consolidated Group for the financial year; and
- that the Company has complied with all other matters prescribed by the regulations in relation to the financial statements and the accompanying notes to the financial statements.

The Group Chief Executive Officer and the Group Chief Financial Officer have each given a written assurance to the Board that:

- the opinion forming the basis for the declaration made by each of them, and referred to above, was formed on the basis of a sound system of risk management and internal control which is operating effectively; and
- in accordance with Recommendation 4.2 in the Principles and Recommendations (Fourth Edition), the declaration above is founded on a sound system of risk management and internal control which implements policies adopted by the Board operating efficiently and effectively in all material respects in relation to the business and financial reporting risks.

VERIFYING THE INTEGRITY OF PERIODIC CORPORATE REPORTS

The Company's half year financial results are reviewed by the Company's external auditor and the Company's full year financial results are audited by the Company's external auditor in accordance with the requirements of the *Corporations Act 2001* (Cth).

However, in between these formal corporate reports, during the reporting period, Redflex has released to the market various periodic corporate reports containing financial, operational and general market update information (that is not externally audited or reviewed by the Company's external auditor).

This practice, which is common among listed entities, is in furtherance of:

- the Company's commitment to continue to effectively engage and communicate with our shareholders and other stakeholders about the Company's activities throughout the reporting period (see the "Continuous Disclosure Policy" section below); and
- the idea, that by doing so, the Company can assist to ensure that trading in the Company's securities takes place in a market which is orderly and informed and which is not, or is not likely to be, false.

The Company seeks to ensure to provide information to the market that is consistent with the Company's continuous disclosure obligations under the Australian Securities Exchange (**ASX**) Listing Rules 3.1 and 3.1A and section 674 of the *Corporations Act 2001* (Cth) and which is not misleading.

To achieve this, the Company has systems and processes in place to manage, organise and record financial and operational information including information relating to customer activities, orders and commitments. The Company also has a global electronic accounting system that includes the required segregation of duties and records of workflows.

The Company also uses an electronic customer relationship management tool that tracks sales opportunities, sales workflows and closed sales transactions that is monitored by senior sales and operational executives as well as the Group Chief Executive Officer and the Group Chief Financial Officer. Customer sales transactions are not closed in this

system until these transactions reach a certain advanced objective stage in their lifecycle. Management also meet regularly to track customer sales and order activities, to discuss the Redflex Group's financial performance on a quarterly basis, to consider real time financial information against the performance measures set by the Board and to review the current cash position of the Company. The Group Chief Executive Officer and the Group Chief Financial Officer participate in and lead these management meeting sessions.

Depending on the type and nature of the information to be disclosed to the market, appropriate members of senior and executive management are involved in the preparation of the various periodic corporate reports for release to the market. These periodic corporate reports are reviewed by senior and executive management (other than the person who prepared them) as well as by the Group Chief Executive Officer and the Group Chief Financial Officer. These periodic corporate reports are therefore subjected to a rigorous quality assurance process and review to ensure that the information to be released to the market has been verified as accurate and is not misleading.

These systems and processes combine to ensure that the Company's periodic corporate reports are materially accurate, balanced and provide investors with appropriate information to make informed investment decisions.

EXTERNAL AUDITOR

The external auditor is invited to attend each AGM of the Company as required by section 249K of the *Corporations Act 2001* (Cth).

The Company also ensures that the external auditor confirms attendance at the AGM and that members are given a reasonable opportunity to ask questions of the external auditor at the AGM (pursuant to section 250T of the *Corporations Act 2001* (Cth)).

The Company also provides a means whereby members can ask, and send in to the Company or the Company's share registry services provider, advance questions to the external auditor to be answered at the Company's AGM.

CONTINUOUS DISCLOSURE POLICY

Pursuant to Recommendation 6.2 of the Principles and Recommendations (Fourth Edition), the Company's objective is to promote effective two-way communication with its shareholders, and is committed to:

- ensuring that shareholders and the financial markets are provided with full and timely information about the Group's activities in a balanced and understandable way;
- complying with the continuous disclosure obligations contained in the ASX Listing Rules and the *Corporations Act 2001* (Cth); and
- communicating effectively with shareholders and making it easy for shareholders to communicate with the Company.

The Company's Continuous Disclosure Policy is published in the "Investors / Governance / Other Company Policies" tab of the Redflex website. The Board disclosed its Continuous Disclosure Policy for the whole of the reporting period.

To promote effective communication with shareholders and encourage effective participation at general meetings, information is communicated to shareholders:

- through the release of information to the market via the Australian Securities Exchange;
- through the Annual Report and notices of general meetings;
- through letters and other forms of communications directly with shareholders; and
- by publishing relevant information on the Redflex website.

The Redflex website has a dedicated "Investors / Governance" tab for the purpose of publishing important Company information and relevant announcements made to the market.

The Company also provides its shareholders with the option to receive communications from, and send communications to, the Company and the Company's share registry electronically.

The Board is sent an email by management, along with all other interested persons who have opted in, notifying them of, and supplying a link to a copy of, all ASX announcements. In addition, the Board is provided with a summary of all ASX announcements made in the immediately preceding period (usually monthly) at each regular Board Meeting.

WHISTLE BLOWER POLICY

The Company is committed to engaging in ethical decision-making, being legally compliant and acting consistently with good corporate governance standards and community expectations. Accordingly, the Board disclosed its Whistle Blower

Policy for the whole of the reporting period (although the Board replaced its existing Whistle Blower Policy on 1 July 2019 with a new Whistle Blower Policy).

To support the Company's commitment (as expressed above), the Company strongly encourages and provides a readily accessible means to report undesirable behaviours such as unethical, unlawful, fraudulent or otherwise misconduct involving the Company, any member of Group or any director, officer or employee, contractor, supplier to or other person dealing with these entities.

The Company also ensures that whistle blower reporters can make reports under the Company's Whistle Blower Policy (anonymously, if they so choose and confidentially) without fear of intimidation, retaliation or adverse employment action being taken against them.

In addition to these considerations there are specific provisions under Australian legislation which provide whistle blower reporters with legal rights in relation to certain types of disclosures. The relevant legislation is sections 1317AA to 1317AJ of the *Corporations Act 2001* (Cth) and sections 14ZZT to 14ZZZE of the *Taxation Administration Act 1953* (Cth) (**Whistleblowing Legislation**). The protections under the Whistleblowing Legislation only apply to certain types of disclosures, known as Qualifying Disclosures. There are specific requirements under the Whistleblowing Legislation for a report to be a Qualifying Disclosure.

The Company's Whistle Blower Policy contains a summary of parts of the Whistleblowing Legislation. However, the Company's policy is not intended to override any rights or obligations that whistle blower reporters may have under the Whistleblowing Legislation.

The Company also makes available various means for whistle blower reporters to make reports (anonymously, if they so choose and confidentially) including by way of a contracted qualified third party whistle blower services provider, telephone, email and ordinary mail.

The Company's Whistle Blower Policy is published under the "Investors / Governance / Anti-Bribery, Anti-Corruption and Compliance" tab on the Redflex website.

Redflex also runs its own systems engineering operations, system integration technologies and innovation centre for research and development. With the Company's continuous development of new products, Redflex has been helping to improve roadway safety, alleviate congestion and reduce the harmful impacts of vehicle emissions for more than 20 years.

The economic risks that the Company is subject to and must manage are set out in the "Risk Management" section of the Directors' Report in the 2019 Annual Report.

In general, the Board considers that the Company is not susceptible to any material environmental or social sustainability risks in operating its various businesses.

PEOPLE, CULTURE & REMUNERATION COMMITTEE

The Board has delegated responsibility for our people, our Redflex Group culture and remuneration strategy to the People, Culture & Remuneration Committee which operates under a charter approved by the Board that is published on the Redflex website. The Board disclosed its People, Culture & Remuneration Committee Charter for the whole of the reporting period.

The Company's objective is to provide maximum stakeholder benefit from the retention of a high-quality Board and senior executives by remunerating directors, senior executives and employees fairly and appropriately with reference to relevant employment market conditions. To assist in achieving this objective, the nature and amount of executive directors' and officers' compensation is linked to the Company's financial and operational performance. The expected outcomes of the remuneration structure are:

- retention and motivation of key senior executives;
- attraction of quality management to the Company; and
- performance initiatives which allow executives to share the rewards of the success of the Company.

The Company prepares, and has signed a written:

- letter of engagement (including any variations to these letters) with each non-executive director setting out the terms and conditions of the engagement; and

- employment agreement (including any variations to these agreements) with each executive director and senior executive, respectively, setting out the terms and conditions of their engagement.

For a full discussion of the Company's remuneration philosophy and framework and the remuneration received by Key Management Personnel, please refer to the Remuneration Report set out in the Directors' Report of the 2019 Annual Report.

The Board is responsible for determining and reviewing remuneration arrangements for the non-executive directors, the Group Chief Executive Officer and the SVP, Group General Counsel & Company Secretary. There is no scheme to provide retirement benefits to non-executive directors, except for superannuation, where it is applicable.

The People, Culture & Remuneration Committee comprises four non-executive directors:

- that person is in possession of price sensitive information in relation to Redflex or the Company's securities that has not been released to the market; or

The Redflex Securities Trading Policy contains a procedure for obtaining prior written trading clearance from the SVP, Group General Counsel & Company Secretary and also the exceptions to the restrictions in dealing in the Company's securities.

A Restricted Person (being a member of Key Management Personnel including directors, officers, senior executives and their immediate family members) is only permitted to trade in the Company's securities, even within a Trading Window (any part of the year outside a Closed Period), if they have received written clearance from the SVP, Group General Counsel & Company Secretary (or the Group Chief Executive Officer if the Restricted Person is the SVP, Group General Counsel & Company Secretary). Such clearance will only be given:

- if the Restricted person confirms that they have satisfied themselves that they do not possess any price sensitive information about Redflex or the Company's securities that has not been released to the market; and
- after taking into consideration the Redflex Group's circumstances at the time, the SVP, Group General Counsel & Company Secretary (or the Group Chief Executive Officer if the Restricted Person is the SVP, Group General Counsel & Company Secretary) reasonably believes that the risk of insider trading, or the appearance of insider trading, is not unacceptable.

No Designated Person or Restricted Person may trade in the Company's securities at any time if they are in possession of price sensitive information in relation to Redflex or the Company's securities that has not been released to the market.

Neither a Restricted Person or a Designated Person may trade in the Company's securities during the Closed Period without obtaining written clearance from the SVP, Group General Counsel & Company Secretary (or the Group Chief Executive Officer if the Restricted Person is the SVP, Group General Counsel & Company Secretary).

The Company's Closed Periods are:

- 30 November to the second trading day (inclusive) after the Company's half year financial results are released to the ASX;
- 31 May to the second trading day (inclusive) after the Company's full year financial results are released to the ASX; and
- any other period during the year that the Board or the SVP, Group General Counsel & Company Secretary designates as a Closed Period.

Only in exceptional circumstances will trading clearance be given for a Designated Person or Restricted Person within a Closed Period.

No Restricted Person, entitled to an equity based component of incentive remuneration, may trade or commit to trade in the Company's securities, trade in a derivative security product or enter into any arrangement in such a way as to limit his or her exposure to risks in relation to any unvested part of an equity based remuneration component without the prior consent of the SVP, Group General Counsel & Company Secretary (or the Group Chief Executive Officer if the Restricted Person is the SVP, Group General Counsel & Company Secretary).

Restricted Persons may not include their securities in a margin loan portfolio or otherwise deal in securities pursuant to a margin lending arrangement without first obtaining the consent of the SVP, Group General Counsel & Company Secretary (or the Group Chief Executive Officer if the Restricted Person is the SVP, Group General Counsel & Company Secretary).

Designated Persons should not engage in short-term trading of the Company's securities except on the exercise of options held by a Designated Person and where the shares received on exercise of the options will be sold shortly thereafter.

As required by ASX Listing Rules, the Company notifies the ASX of any transaction in the Company's securities by a director.

The Board disclosed its Redflex Securities Trading Policy for the whole of the reporting period.
